CHAPTER 01

About Us

Who we are, where we work and the standard we hold ourselves to.

IN THIS CHAPTER

Who we are **p. 04**

Key facts at a glance **p. 04**

Our commitment **p. 04**

01 • WHO WE ARE

An experienced team of engineering professionals

Two things set us apart: the standard of our engineering and the people who deliver it.

We build long relationships with our clients, and we keep up with new methods and materials. The aim is simple. We want our structures to last, and we want to build them with as little harm to the environment as we can.

Our people hold themselves to a high standard at every stage of a job, from the first piece of technical advice to the day we hand the project over.

CHAPTER 02

Vision & Mission

What we are working towards and how we go about getting there.

IN THIS CHAPTER

Our vision **p. 06**

Our mission **p. 06**

Our values in practice **p. 06**

02 • OUR VALUE

Quality work from dedicated professionals

We set a high bar for quality, service and efficiency, and we hold to it on every project we take on, large or small.

01

Our Vision

We want to change the way construction is done in the places we work. That means structures that serve people for generations, built through good design, sustainable methods and careful workmanship.

02

Our Mission

We deliver sound engineering with the client at the centre of every decision. We aim to do more than the brief asks, through skilled workmanship, practical solutions and a service shaped around each client.

WHAT THIS LOOKS LIKE IN PRACTICE

● Excellence

● Innovation

● Sustainability

● Craftsmanship

● Client Commitment

03

CHAPTER 03

Why Choose Us

Four reasons clients keep coming back to us.

IN THIS CHAPTER

Over 10 years of experience **p. 08**

Certified professionals **p. 08**

Fast, accurate and reliable **p. 08**

24/7 support **p. 08**

03 · WHY CHOOSE US

Why clients work with Hampshire Engineers

Over 10 Years of Experience

We have worked in construction for more than ten years. That experience shows in the results we deliver, and it is a big part of why clients come back to us.

Certified Professionals & Experts

Our team is made up of certified professionals and industry specialists. Each of them brings the skills and qualifications the job calls for.

Fast, Accurate & Reliable

We work to tight timelines without cutting corners. Speed never comes at the cost of quality or attention to detail.

24/7 Support

If you need help with your project, day or night, our team is on hand to give you clear advice straight away.

“The earth is our foundation, the future is our ambition.”

04

CHAPTER 04

Our Services

Eleven disciplines, from the first piece of advice to delivery on site.

IN THIS CHAPTER

Advisory, design and digital **p. 10**

Civil, structural and sustainability **p. 10**

Construction, roads and lifting **p. 11**

04 • OUR SERVICES

Eleven disciplines, one team

Our work covers eleven specialist disciplines, from early technical advice right through to delivery on site. Clients can bring us in for one of them or for the whole project.

**01 Technical Advisory Services**

Expert advice on the technical side of construction projects, so the work runs efficiently and meets industry standards.

**02 Design and Planning**

Turning a project brief into detailed architectural and engineering designs, from the first concept to construction-ready drawings.

**03 Digital Construction**

Using BIM and other digital tools to plan the work, keep every team on the same page and get better results on site.

**04 Civil & Geospatial Engineering**

Civil infrastructure work backed by geospatial data and analysis, so design and development decisions rest on accurate information.

**05 Structural Engineering**

Safe, durable structures built on careful analysis and design, with a long service life in mind from day one.

**06 Climate & Sustainability Engineering**

Building sustainable methods and technology into our projects to reduce their environmental impact and help them cope with a changing climate.

Five more disciplines follow on the next page, covering the full journey from advice to delivery.

04 · OUR SERVICES (CONTINUED)

Safe, fast and affordable construction

**07 Construction Management**

Running the whole construction process, from planning and procurement to delivery, on time, on budget and to a high standard.

**08 Mine Construction & Rehabilitation**

Building and restoring mining facilities, including the infrastructure around them and the rehabilitation of the surrounding land.

**09 Road & Infrastructure Development**

Designing and building roads and core infrastructure that connect communities and support economic growth.

**10 Environmental & Water Engineering**

Practical solutions for water resource management, pollution control and conservation that protect people and the environment they depend on.

**11 Lifting Solutions**

Lifting and rigging plans designed around each project, so heavy loads and equipment are moved safely and efficiently.

Every job is backed by certified professionals and round-the-clock support. See Why Choose Hampshire on page 07.

05

CHAPTER 05

Core Capabilities

The support we offer beyond the construction work itself.

IN THIS CHAPTER

Consultancy **p. 13**

Training **p. 13**

Management **p. 13**

05 • CORE CAPABILITIES

What we offer beyond the build

Alongside the construction work itself, we offer three services that help clients plan well, build skills in their own teams and keep projects on track.

Consultancy

Our consultants take time to understand the problem in front of you and then help you find the right way forward. We turn difficult situations into plans you can act on.

Training

Our training programmes give your people practical skills and the confidence to use them, so they can take on more demanding work.

Management

We look at your operations as a whole and help each part run as it should, so your plans turn into real results.

From concept to completion, we give every project the same care and attention.

06

CHAPTER 06

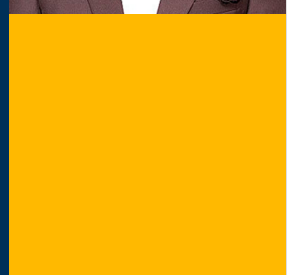

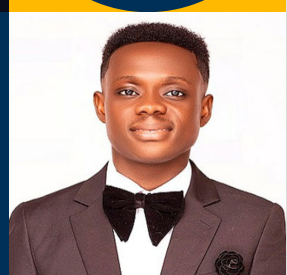

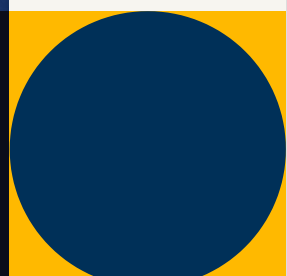

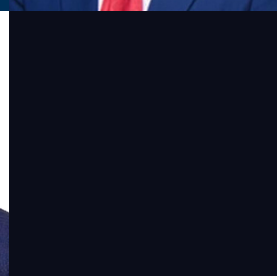

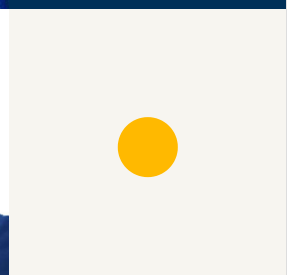

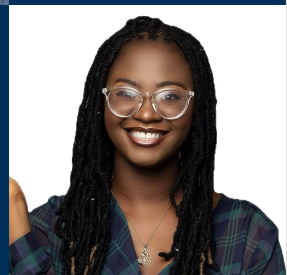

Leadership Team

The engineers and specialists who lead our work.

IN THIS CHAPTER

Our founder **p. 15**

Heads of department **p. 15**

06 • MEET OUR TEAM

The people behind the work

Our leadership team brings together engineers, designers and specialists in finance and administration. They work closely with each other and with our clients to get the job done well.
